

Title

Urchin Pendant

Description

The Urchin Pendant Light is inspired by the empty shells of the Sea Urchin 'Echinus esculentus', a creature who inhabits our Cornish coast line. Designed to completely conceal the bulb, the spherical form of this wooden pendant light is made up from strips of sustainably sourced ash, oak or walnut wood and held by laser cut birch plates. The formation of the strips carefully conceals the light bulb whilst creating a beautiful lighting effect.

Made by hand in Cornwall, England from sustainably sourced wood and finished with an eco-friendly, non-toxic varnish.

To be used with an energy saving 25 watt bulb (equivalent to a 125 watt standard bulb).

Available in a small version, the Urchin Pendant light can be used on its own or in clusters.
